

Why Humans are Living Things

Humans are living things because we perform **three** vital functions:
nutrition,
interaction, and
reproduction.

Fill in the blank!

Humans are living things because we perform three vital functions: nutrition, interaction, and reproduction.

Nutrition

Humans are living things because we need nutrients and oxygen to grow.

Nutrition: Fill in the blank!

Humans are living things because we need nutrients and oxygen to grow.

Nutrition

We get nutrients from food.

Nutrition: Fill in the blank!

We get nutrients
from food.

Nutrition - Omnivores

Humans are omnivores, which means that we eat meat and plants.

Nutrition - Teeth

We need teeth to eat. Human beings can crush, cut and tear food with our teeth.

Nutrition - Teeth (Fill in the blank!)

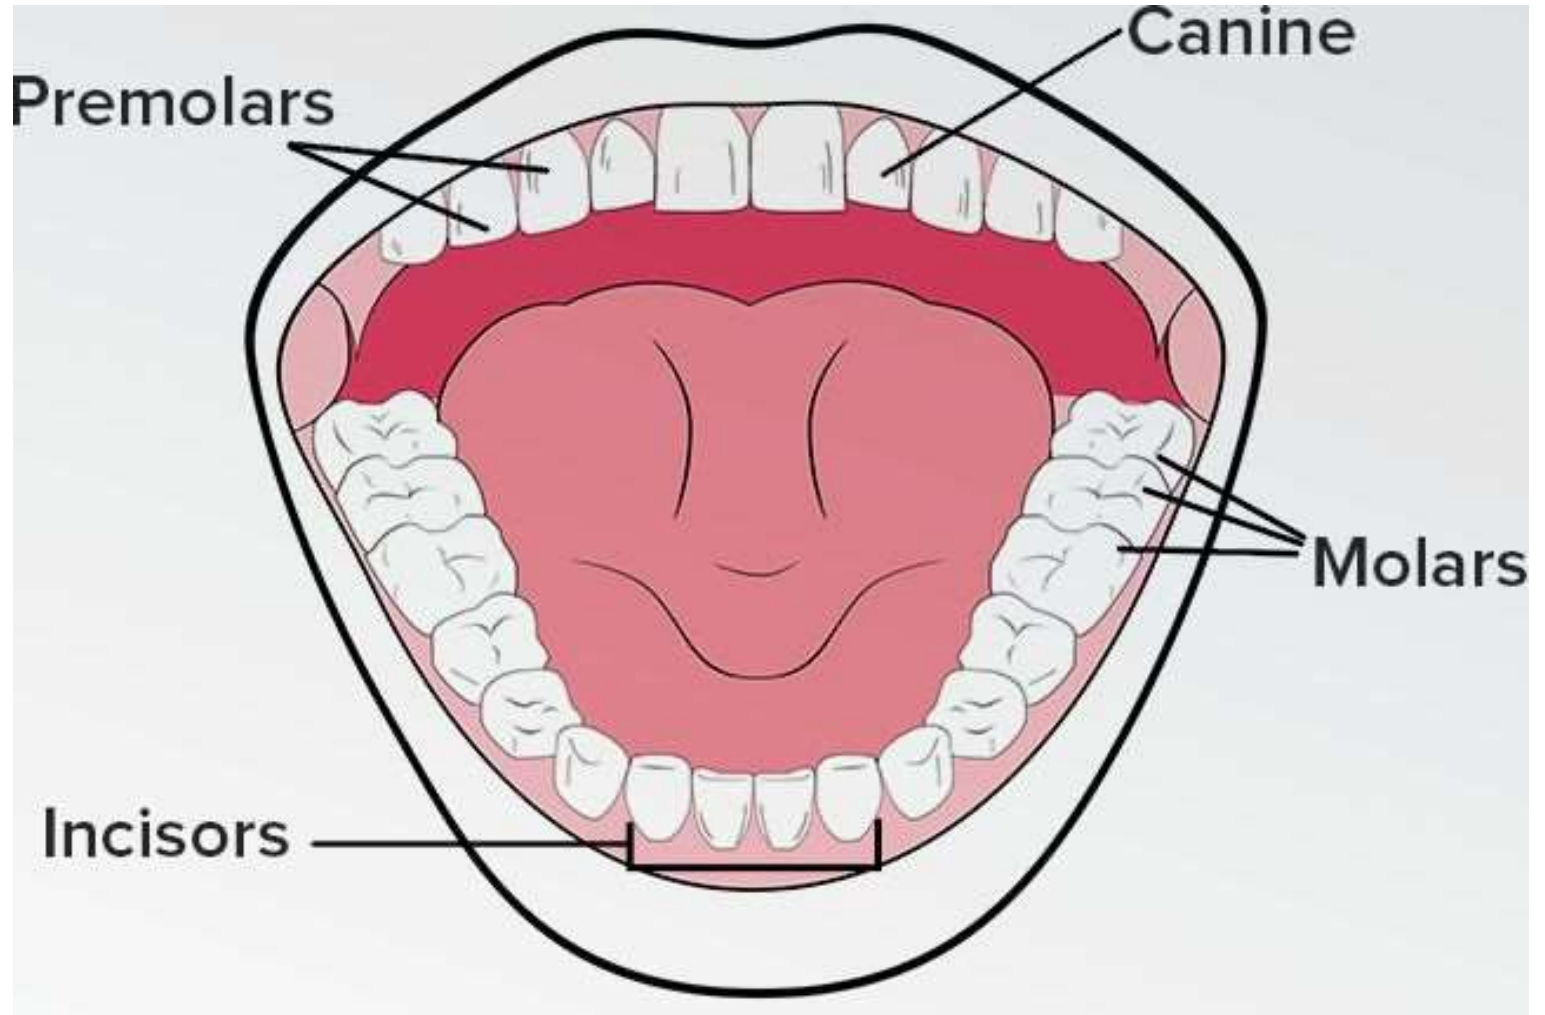

We need teeth to
eat. Human
beings can crush,
cut and tear food
with our teeth.

Nutrition

- Teeth

We have different types of teeth, including **incisors**, **canines**, **molars**, and **premolars**.

Interaction

Human beings are living things because can **interact** with our **environment**, with **other people** and with **other living things**.

Interaction: Fill in the blank!

Human beings are living things because can interact with our **environment**, with **other** people and with other living things.

Interaction – The Five Senses

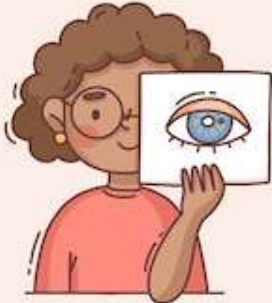

Humans interact with their environment through **five** senses: sight, hearing, taste, smell, and touch.

Interaction – The Five Senses

These senses allow us
to perceive and respond
to the world around us.

hear

sight

taste

smell

touch

Reproduction

Humans are living things because we can reproduce and have babies that are like us.

Reproduction: Fill in the blank!

Humans are living
things because we
can reproduce
and have babies
that are like us.

Reproduction - Viviparous

Humans are viviparous, which means we are born from our mother's womb.

Pop Quiz!

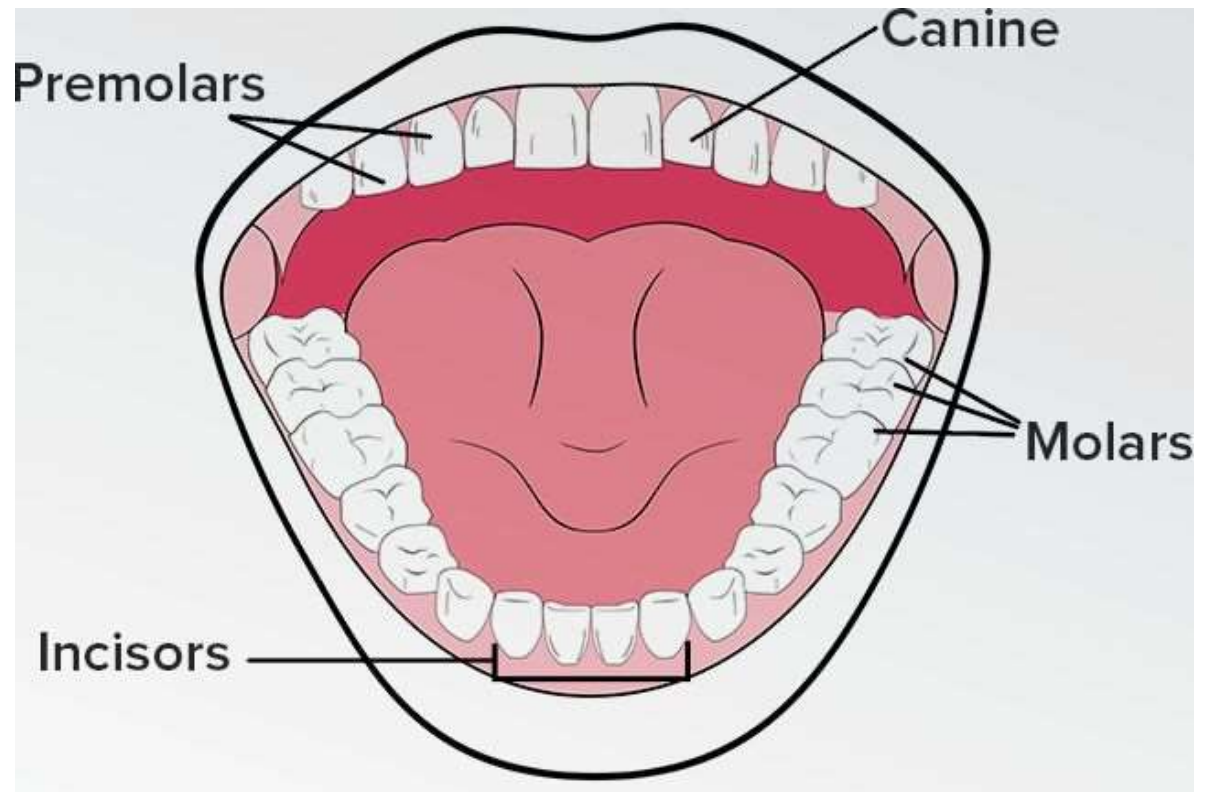

What are the 3 functions that
make humans living things?

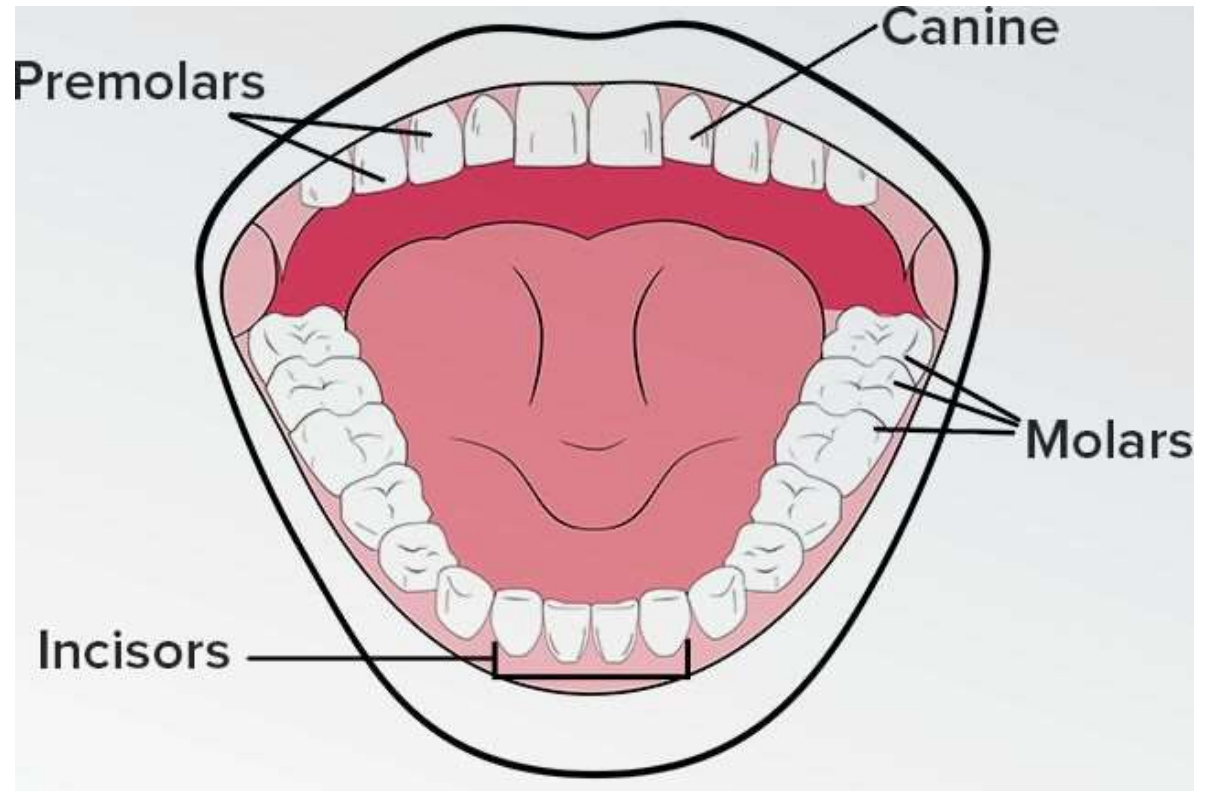

Nutrition, Interaction, and
Reproduction!

Pop Quiz!

What are
some types
of teeth that
we have?

Incisors,
Canines,
Premolars,
and Molars!

Are humans
herbivores,
omnivores, or
carnivores?

Omnivores!

Why?

Because we eat
meat and plants!

Are humans
oviparous or
viviparous?

Viviparous!
Why?

Because we
are born from
our mother's
womb!

hear

sight

taste

smell

touch

Pop Quiz!

How many senses do we have?

hear

sight

taste

smell

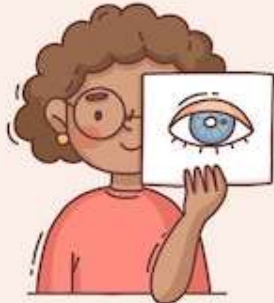

touch

5 senses! What
are they?

hear

sight

taste

smell

touch

Hearing, Sight,
Taste, Smell,
and Touch!
