

Plants

Plants are living things.

They are born, grow, reproduce and die.

Fill in the
Blank!

Plants are
living things.

They are born,
grow, reproduce
and die.

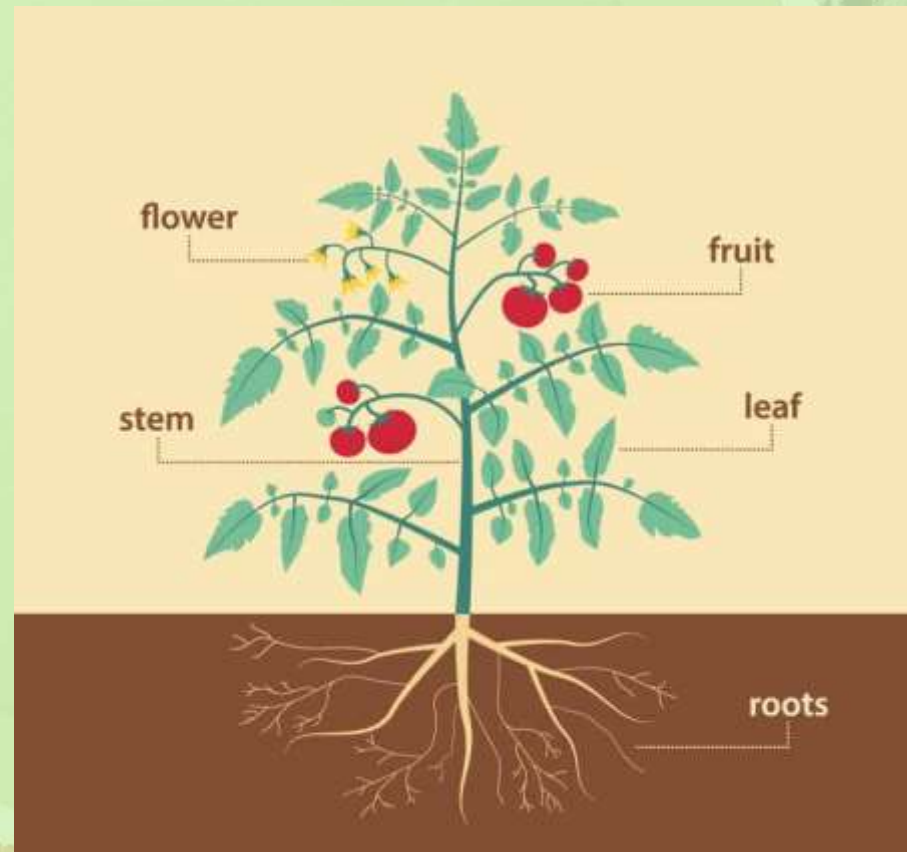

Parts of a Plant

Plants have various parts.

The parts of a plant are:

- roots
- stem
- leaves
- fruit
- flower

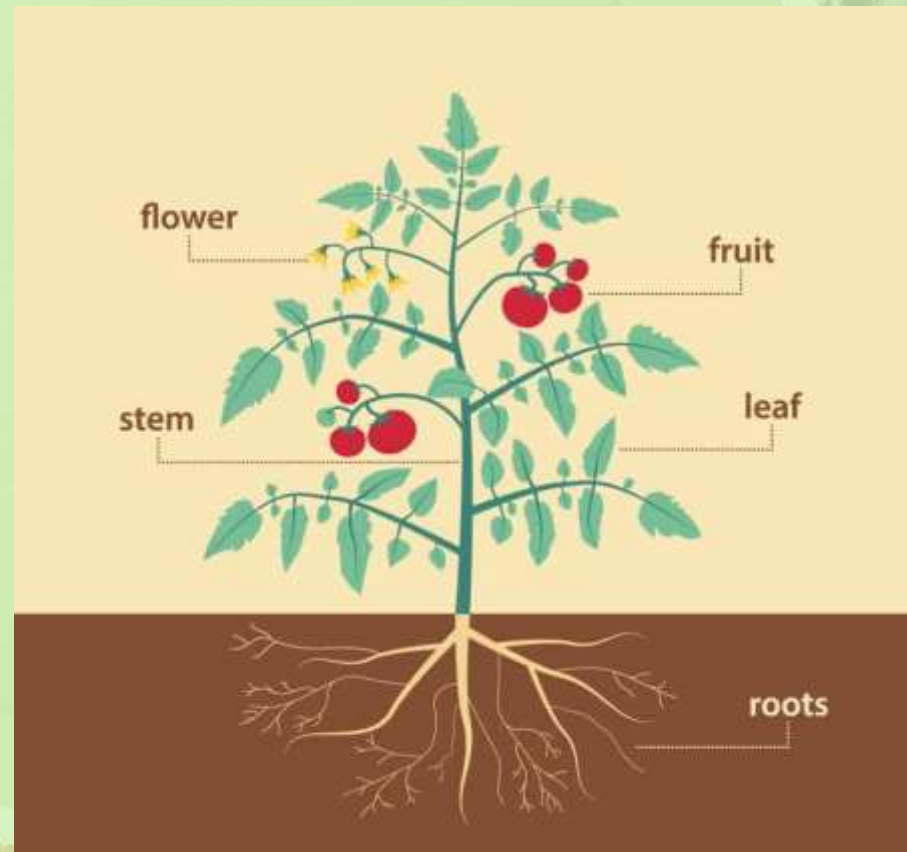

Parts of a Plant: Fill in the Blank!

Plants have various parts.

The parts of a plant are:

- roots
- stem
- leaves
- fruit
- flower

Plants can be classified into three different categories according to their stem:

- Trees
- Bushes
- Grasses

Different Types of Plants; Fill in the Blank!

Plants_ can be classified into three_ different categories according to their stem:

- Trees
- Bushes
- Grasses

Different Types of Plants

Trees

- Have a hard and thick stem called a trunk.
- They are the tallest plant.

Different Types of Plants: Fill in the Blank!

Trees

- Have a hard and thick stem called a **trunk**.
- They are the **tallest** plant.

Different Types of Plants

Bushes

- Most of them have more than one stem.
- They have low branches.

Different Types of Plants: Fill in the Blank!

Bushes

- Most of them have **more** than one stem.
- They have **low** branches.

Different Types of Plants

Grasses

- Their stems are flexible.
- They have a short and thin stem.

Different Types of Plants: Fill in the Blank!

Grasses

- Their **stems** are flexible.
- They have a **short** and thin stem.

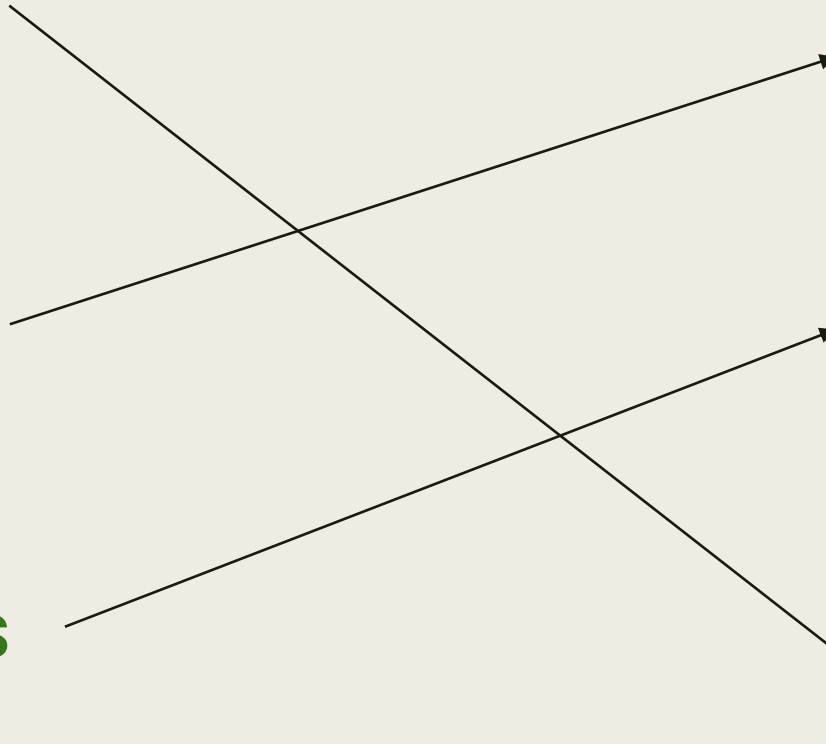

MATCH TO THE PICTURE :

Parts of a Plant

Fruit

Roots

Leaves

Is this a tree or a bush?

It's a tree!
Why is it a tree?

Because it has a trunk and is tall!

Is this a bush or grass?

It's a bush!
Why is it a bush?

Because it has low branches and short & thin stems!

Is this grass or a tree?

It's grass!
Why is it grass?

Because it has more than one stem
and the stems are flexible!
